1) Loging into the workspace we created, we don't need any password rules here

ORACLE Application Express
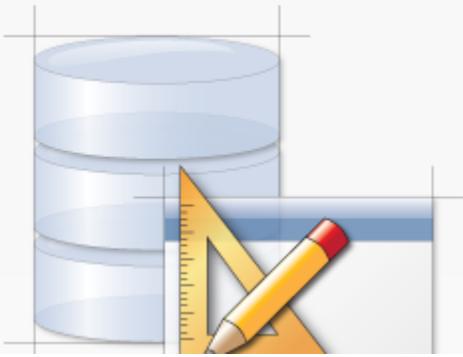

Enter Application Express workspace and credentials.

Workspace ams

Username SV23529

Password ••••••••••

Login

Click here to learn how to get started

2) Logging into our application, no need of password here also

Login

Username sv23529

Password •••••••   Login

3) We have a users form, where we create new users to access the application, I'm looking for password complexity rules for the users we create in the application

Users

Department Name [AMS Development Team ▼]   Employee # [   ]

* First Name [   ]   Middle Name [   ]   ***** Last Name [

Preferred Username [   ]   Username [   ]   Job Title [

Fax # [   ]   Mobile # [   ]   Office # [

Alternate # [   ]   Pager # [   ]   ***** Email [

Contact Method [▼]   Password [   ]   Confirm Password [

* Start Date [   ] 📅   End Date [   ] 📅   Status [

Notes [   ]
